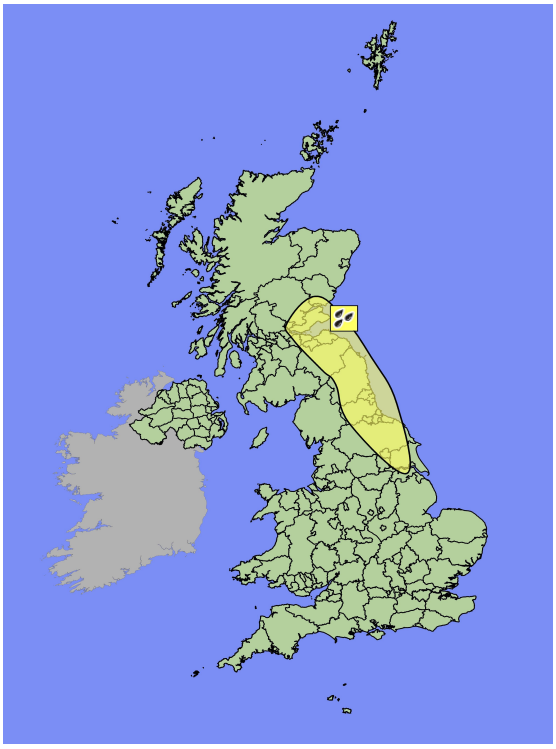
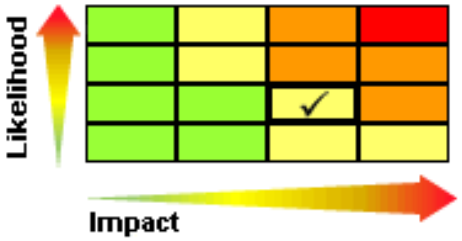
National Severe Weather Warning Service





Chief Forecasters Assessment
Rainfall accumulations of 20 to 30 mm are expected widely with isolated totals around 50 mm possible, these mainly over southeast Scotland. Over northeast England the large rainfall totals will probably be more localised.

The Met Office have issued a **Yellow Alert** of **Rain**

Valid from **12:00 on Sat, 06th Aug 2011** until **12:00 on Sun, 07th Aug 2011**

An area of heavy and perhaps thundery rain is expected to develop over northeast England by Saturday afternoon. It will then spread north into southeast Scotland during Saturday afternoon and evening. The rain should die out across northeast England on Saturday night but will persist across Scotland into Sunday morning and perhaps longer.

The public should be aware of the potential for standing water which could affect travel and outdoor activities.
